3. Mr. Dulles asked me to prepare certain personnel statistics and budget data and to be present with him at a meeting tomorrow morning at 10 a.m. with the Rockefeller Committee. I arranged to get the personnel statistics and met with Mr. Saunders and [REDACTED] to prepare the budget information. They will have it ready for me at 9 a.m. tomorrow morning, and I can discuss it briefly with Mr. Dulles at about 9:30 a.m.

4. Howard Preston was in to inquire whether there was any objection to doing our new Regulations on letter press equipment. I told him that as long as we were operating the equipment, I had no objection whatsoever to it being used for Regulations, if they thought it was advisable to do so.

5. Walter Pforzheimer said that he understood a letter had been received from Senator Saltonstall, asking if we wished to employ [REDACTED] who formerly worked for [REDACTED] in Personnel and who was Director of Athletics at Harvard for a number of years. Mr. Pforzheimer thinks that Senator Saltonstall discussed this case with General Smith at the time [REDACTED] separated himself from the Agency, and he wanted me to find out if Mr. Wolf knows of any such conversation; this I will do.
